they want a baby. Most often, people have sexual intercourse because it feels good. People have sexual intercourse well into old age.

When a couple has sexual intercourse and does not want to make a baby, there are healthy ways, called birth control, that can help keep them from making a baby or from passing on an infection to one another.

Sometimes, a couple does not plan ahead or decide whether or not to have sexual intercourse. Planning ahead is most often the most effective way to keep a pregnancy from beginning.

People also call sexual intercourse "making love" or "lovemaking" because it's a way of expressing love. But sexual intercourse is only one way of expressing love.

Another kind of sexual intercourse happens when the sexual parts of two people who have female bodies touch or when the sexual parts of two people who have male bodies touch. This kind of touching can make the whole body feel good — feel sexy. Since male bodies have only sperm cells and no egg cells — and since female bodies have only egg
