

Leslie Neneman Bio

I am a 3rd generation California native and still love the beautiful state of California. When the politics in California began to change my husband and I began to think about moving to a more conservative state. We visited Prescott, AZ, in 2010 and fell in love. We continued to visit and, in 2016, bought and moved into our current home.

I began my long career (27 years) as a property and casualty insurance agent and worked for the Automobile Club of Southern California for 22 years before retiring and moving to Prescott. I spent five more years selling insurance before officially retiring in 2021.

I enjoy traveling and have been on several cruises, and I enjoy exploring and hiking in our National Parks. I have been to 13 National Parks, with many more to see.

I strongly believe in conservative values, and I am passionate about serving with RWOP and will help wherever needed. I have served on the Membership committee for the past two years, and I am learning a lot about how our Club works. I look forward to serving as the Volunteer Hours and Awards Chair in 2024.
