

Biography for Maureen Salfrank

Campaigns and Petitions

I was born in Glendale California, the fourth child out of five. We eventually ended up in Corona California, where I lived until I got married. My husband, for almost 31 years, Brian and I bought a house in Riverside California where we lived and raised two beautiful daughters.

I worked at UCI Medical Center in the Lab as an assistant. I also worked at Anaheim Stadium (where the Angels and at one time the Rams played). This was a part time job that I started at 16 (being a popcorn girl) and moved to the suites as a server and eventually as Manager of Special Events and Catering. This position happened at the right time when I was laid off from UCI. Eventually I was able to stay home with my girls when our oldest started kindergarten. In 2012 I was able to go back to UCI where I worked until I retired in 2019.-

Both my girls are married and have blessed Brian and I with five beautiful grandchildren. Our youngest Caroline lives in Greenwood, MO with her husband Chad and their four children. Our oldest Heather, lives in Maricopa, AZ with her husband Victor and one daughter. We are so thankful to be able to visit both girls often.

We moved to Prescott in 2020, we signed papers to close on our home the day the country closed due to COVID. I joined RWOP in August of 2020. I have helped on Ways and Means along with Caring for America and PASS. I have enjoyed being part of a community with the same values that I hold close to my heart.

We have met so many beautiful people here in Prescott. My husband and I joke we do more here than we ever did in California.
