

Representative Judy Burges is an award winning un-apologetic conservative. She was first elected in 2005 while residing in Yavapai County then redistrict to Yavapai-Maricopa Legislative District #4. Robert and Judy raised their 3 children in Yavapai County, their children still live in Yavapai County, and are all productive members of the community.

The Burges' were members of many of the local organizations and very active in local politics. Representative Burges served as historian for the local Yavapai Republican Women's Club before being elected to the House of Representative. She also served as the Yavapai Republican Party's First Vice Chairman. Their roots are deep in this community.

As a legislator, she feels that it is her job is to stand in the gap between "We the People" and an ever-expanding government that seeks to constantly raise your taxes and impose increasing bureaucratic burdens on individuals and business. A great description of the Biden administration-more regulation, higher taxes, and impossible mandates. With 31 Republican members in the House and 16 Republican members in the Senate, we need more real conservatives in the legislature.
